

Obesity, Diabetes and the Metabolic Syndrome

The 10th Annual Plymouth Symposium

*Thursday 20th May 2010
Postgraduate Medical Centre, Derriford Hospital*

This event will showcase some of the work being delivered nationally by experts on the origins, mechanisms and management of diabetes and cardiovascular risk

Find out more about:

- ◆ What works best in the prevention of childhood obesity
- ◆ What underlies diabetes and cardiovascular disease
- ◆ What you have at your disposal to improve the diets of children
- ◆ The metabolic risk of cancer
- ◆ The impact of physical activity on metabolic risk in children
- ◆ Why type 1 and type 2 diabetes may not be so different
- ◆ What we can learn from our mistakes in the management of obesity

Speakers include:

Prof Mark Hanson, University of Southampton
Early origins of Diabetes Risk

Prof Julian Shield, University of Bristol
Paediatric Obesity – What Works and What Doesn't

Prof Jack Winkler, London Metropolitan University
Policy instruments to improve children's diets

Dr Ashley Cooper, University of Bristol
Physical Activity Interventions in Children

Prof Terry Wilkin, Peninsula Medical School
Diabetes: 1 and 2, or One and the Same?

Prof David Kerr, Royal Bournemouth Hospital
Breast cancer and metabolic risk

Dr Ian Campbell MBE, Former Chair of the National Obesity Forum
Lessons from failure
